# CHEMICAL STORAGE CUPBOARD - 1PW

# Free up space in your workshop by safely storing your dangerous goods, including chemicals, corrosives and flammables, outside in a secure, lockable 1 Pallet Wide Chemical Storage Cabinet.

## Details

SCF's Pallet Wide Chemical Storage Cabinet is designed for space constrained sites. It can safely store a standard CHEP pallet or one IBC.

It also comes standard with 3 adjustable shelves for the storage of chemicals, corrosives and flammables in multiple small packages.

Keep your hazardous goods secure with the external lock whilst ensuring your workers safety.

Built to the same AS1940 standard as SCF's industry leading range of Dangerous Goods Containers, the cabinets are the compliant solution for your site.

As with all SCF Dangerous Goods products, the Chemical Storage Cabinet comes with an internal escape mechanism for peace of mind for your employees.

## Key Features

- AS1940 compliant
- Forklift pockets in both directions for ease of movement onsite
- Bund capacity of 1,300L
- Safely store chemicals, corrosives and flammables

# CHEMICAL STORAGE CABINET - 2 PW

DANGER  
POUND CAPACITY

Free up space in your workshop by safely storing your dangerous goods, including chemicals, corrosives and flammables, outside in a secure, two pallet wide, lockable, certified, detached chemical storage unit.

#### Details

SCF's Two Pallet Wide Chemical Storage Cabinet is designed for space constrained sites. It comes standard with 6 shelves for the storage of chemicals, corrosives and flammables in multiple small packaged items.

It can also be reconfigured for the storage of two pallets, with shelving above for the additional storage of small packaged items.

Keep your hazardous goods secure with the external lock whilst keeping workers out of harm's way with the use of the interchangeable placard signage plate located on the external doors.

As with all SCF Dangerous Goods products, the Chemical Storage Cabinet comes with an internal escape mechanism for peace of mind for your employees.

#### Key Features

- Stores two pallets with shelving on top for small packages
- AS1940 compliant
- Forklift pockets in both directions for ease of movement onsite
- Ground Anchor points
- Bunded floors for easy spillage cleanup
- Safely store chemicals, corrosives and flammables

**10FT DANGEROUS  
GOODS CONTAINER**

SCF's 10ft Dangerous Goods container is the storage solution that allows you to remove hazardous goods from your everyday workspaces and store them in an external, compliant, secure and lockable area.

#### Details

SCF's 10ft Dangerous Goods Container is the ideal solution for storing dangerous chemicals, liquids or powders onsite in small workshops, with limited onsite space or difficult access.

Key safety features include ventilation grills at the top and bottom levels of the walls, a safety drain valve and emergency escape internal release handle at the exit door.

All SCF Dangerous Goods units are compliant with the applicable Australian Standards and come with galvanised steel flooring, bund to contain spills, raised cross-members to simplify the clean-up of spills and an emergency exit to ensure no one gets locked in.

Upon delivery, each customer will receive an Independent Certificate of Compliance

#### Key Features

- Flexible storage for chemical classes 2, 3, 4, 5, 6, 8 and 9 (subject to MSDS compliance)
- Bunded to contain spillages
- Multiple top and bottom vents for air circulation
- Level entrance for added safety
- 316L safety drain valve

**20FT DANGEROUS  
GOODS DOUBLE  
SIDE DOOR**

SCF's 20ft Dangerous Goods Double Side Door container is the most flexible storage solution for dangerous goods, with access available from both sides. Safely store your chemicals, liquids or powders and get the peace of mind that workplace compliance provides.

#### Details

SCF's Double Side Door Dangerous Goods container is specifically designed for the transport and storage of dangerous goods.

It provides a bunded transport solution for your hazardous and EPA prescribed dangerous goods. The design ensures optimum compliance and safety to transport and store your hazardous goods in purpose-built application from end-to-end.

All SCF Dangerous Goods containers are compliant with the relevant Australian Standard and come with galvanised steel flooring, bunding to contain spills, raised cross-members to simplify the clean-up of spills and an emergency exit to ensure user safety.

Other key safety features include ventilation grills at the top and bottom of the side walls, and a safety drain valve.

Upon delivery, each customer will receive an Independent Certificate of Compliance.

#### Key Features

- Flexible storage for chemical classes 2, 3, 4, 5, 6, 8 and 9 (subject to MSDS compliance)
- Bunded to contain spillages
- Full double side opening access
- Multiple top and bottom vents for air circulation
- 316L safety drain valve

CONTAINER  
SOLUTIONS

20FT DANGEROUS  
GOODS SINGLE  
SIDE DOOR

SCF's 20ft Dangerous Goods Single Side Door container is designed for the storage of dangerous goods where access is only required from one side. Ideally suited to businesses who are storing over 850L of Class 3 Flammables onsite.

#### Details

Full side access allows this Dangerous Goods container to be easily loaded with a forklift. Small packaging items can also be safely loaded by individuals.

All SCF Dangerous Goods units are compliant with the relevant Australian Standards and come with galvanised steel flooring, bunding to contain spills, raised crossmembers to simplify the clean-up of spills and an emergency exit to ensure no one gets locked in.

Other key safety features include ventilation grills at the top and bottom of the side walls, and safety drain valve for easy cleaning.

Upon delivery, each customer will receive an Independent Certificate of Compliance.

#### Key Features

- Flexible storage for chemical classes 2, 3, 4, 5, 6, 8 and 9 (subject to MSDS compliance)
- Bunded to contain spillages
- Full single side opening access
- Galvanised steel floor grating
- Raised crossmembers to simplify spill cleanup
