**10FT DANGEROUS
GOODS CONTAINER**

10ft Dangerous Goods Container

SCF's 10ft Dangerous Goods container is the storage solution that allows you to remove hazardous goods from your everyday workspaces and store them in an external, compliant, secure and lockable area.

Key Features

- Flexible storage for chemical classes 3, 4.1, 4.3, 5.1, 6.1 and 8 (subject to MSDS compliance)
- Bunded to contain spillages
- Multiple top and bottom vents for air circulation
- Level entrance for added safety
- 316L safety drain valve

Details

SCF's 10ft Dangerous Goods Container is the ideal solution for storing dangerous chemicals, liquids or powders onsite in small workshops, with limited onsite space or difficult access.

Key safety features include ventilation grills at the top and bottom levels of the walls, a safety drain valve and emergency escape internal release handle at the exit door.

All SCF Dangerous Goods units are designed to comply with the applicable Australian Standards and certified as a detached store. Built with galvanised steel flooring, bund to contain spills, raised cross-members to simplify the clean-up of spills and an emergency exit to ensure no one gets locked in.

Upon delivery, each customer will receive an Independent Certificate of Compliance.

Specifications

10ft Dangerous Goods Container | DG10
Specifications may vary

Internal

Length (mm) 2,840
Width (mm) 2,370
Height (mm) 2,586

External

Length (mm) 2,991
Width (mm) 2,438
Height (mm) 2,896

Top:
SCF's 10ft Dangerous Goods container provides additional storage for all your dangerous goods. A bunded floor makes the clean up of spills safe and easy.

Middle Left:
Our 10ft DG is ideal for space constrained sites or those with small storage requirements.

Middle Right:
Perfect for workshops, manufacturing or sheds, with limited internal space.

Below:
Safety discharge valve to control spills and assist in any cleanup.

The image shows a close-up, low-angle view of an orange corrugated metal container. The container's surface is composed of vertical ridges. In the center, the letters 'SCF' are printed in a large, bold, white, sans-serif font. The letters are set against a dark blue, rectangular background that has a wavy, undulating shape, giving it a three-dimensional appearance as if it's a sticker or a raised panel. Above the logo, there is a horizontal ventilation grille with several slats. To the left of the grille, a small yellow and black diagonal hazard stripe is visible. The background is a clear, light blue sky.
